EUNIS Information Security SIG

- Meeting @NTNU, Trondheim
- 06. June 2019

About EUNIS

- European University Information Systems organisation (founded 1993)

- Mission:
  "Help member institutions develop their IT landscape by sharing experiences and working together"

- Members
  - Institutions (HEIs, national organisations; around 100 from 23 countries)
  - Corporate members (e.g. Blackboard, Oracle, SAP)
  - Individual members

Information Security SIG

Established in 2017

Mission
- Help member institutions to build up information security management systems (ISMS)
- Use information and expertise that is available at member institutions
- Support information exchange through workshops, meetings and annual conference

Current leads
- Asbjørn Reglund Thorsen, CISO at UNIT, Oslo, Norway
- Thorsten Küfer, CISO at WWU Münster, Germany

Information Security SIG

Past activities
- 'Preparing for the GDPR' in Berlin, 21 April 2017
- 'GDPR – from challenges to solutions' in Lisbon, 12 December 2017
- 'GDPR and Information Security' in London, 10./11. December 2018

Changes in set-up and leadership of SIG during 2018
- Primary aim: regular exchanges between members
- Multiple leads

Discussion/Todo

Identify interested members for the SIG

Revive exchange through
- Mailing list infosec@eunis.org
- Virtual meetings (Zoom)
- Occasionally F2F: workshop and session(s) at EUNIS Conference

Define the scope of the SIG
- Distinguish from other workgroups (TF-CSIRT, GÉANT WISE)
- Identify future topics

Future topics

Set-up of organisational structures for information security
- Resolve responsibilities within organisation (CIO/CISO/DPO)
- Different approaches of member institutions

Set-up of operational structures for information security
- Incident response team (IRT/CERT)
- Proactive activities
- Reactive activities
