

To Finnish exchange students in Sweden,

EMREX is the solution for electronic transfer of achievement records between universities in Europe. The project is currently conducting a field trial in the Nordic countries and all Finnish students in Sweden are asked to participate in the testing by downloading their own achievement results from the host institution. This is your chance to help shape the future for exchange students!

You can download your results by going to the Finnish EMREX-service at:

<https://emrex01.csc.fi/smp>

1. Log in to the service by using your Haka-account
2. Select Sweden and login with your local Swedish username.
3. You can see your results on the screen, or download the PDF.
4. Please also fill in the survey at the end to help the project improve the tool and process.

Help us test the solution and have a look, if you already can find your achievement results from your exchange period! You can do this as soon as the first results are registered at your host university, so either now directly or when you have returned home. It is also possible to login more than once.

You may also use the downloaded results for your recognition process in Finland if agreed with your international coordinator. Please check with your home organization whether they are already using – or could start using - EMREX. Otherwise, electronically transferred results will not yet replace the paper based documentation.

With EMREX you can get a glimpse of the future and see what the recognition process will look like for future exchange students!

Thank you for making EMREX a success!

On behalf of the EMREX-project, November 24th 2016

Pamela Engström, University of Gothenburg, Sweden
Mats Lindstedt, CSC IT Center for Science, Finland

Also attached a quick-guide in Finnish and Swedish on how to use the tool.

EMREX is the solution for electronic transfer of achievement records between universities and university colleges in Europe and supports student mobility with smooth and fast transfer of records. EMREX is co-funded by ERASMUS+. The biggest benefit of EMREX will be the increased availability, quality and reliability of information about student records of achievement information. For more information about EMREX, please see www.emrex.eu
