

Demo – Finnish EMREX Client to Norwegian NCP

This is a short guide on how to do a demo between the Finnish EMREX client and the Norwegian NCP.

Before you do the demo, please check that there is no maintenance work going on at the time for the demo.

Send email to emrex-support@emrex.eu to inform about the demo, include information about time and which part of the EMREX network you plan to use in the demo.

1 Go to emrextest.csc.fi/smp (<http://emrextest.csc.fi/smp>)

2 Select Haka test-idp from the list, and log on as Kaisak with password keränen

The screenshot shows the Haka Home Organisation page. At the top, there is a language selector for 'Suomeksi' and 'På svenska'. Below that is the 'haka' logo and a navigation bar with 'Home Organisation' and 'Help'. The main content area is titled 'Home Organisation' and contains a notice: 'EMREXtest SMP requires authentication. Required personal data is transferred automatically to the service after authentication.' Below this notice is a dropdown menu with 'h Haka Test-Idp' selected and circled in red. There is also a 'Remember selection for this web browser session.' checkbox. At the bottom, there is contact information for CSC - Tieteen tietotekniikan keskus Oy, located at PL 405, 02101 Espoo.

The screenshot shows the Haka Test-Idp login page. It features a header with the 'h' logo and the title 'Haka Test-Idp login page'. On the right side, it says 'Login to EMREXtest SMP' and provides service details: 'Service: EMREXtest SMP', 'Description: EMREX testserver SMP', and 'Privacy Policy: Privacy Policy Service'. The main form has two input fields: 'Username' with the value 'Kaisak' and 'Password' with a masked password '*****'. Below the password field is a checkbox labeled 'Clear prior granting of permission for release of your information to this service.' At the bottom of the form is a red 'Login' button.
