

Let's make competent professionals together!

By giving feedback, you will develop education and training so that all students will be able to achieve their professional goals.

We ask you to give feedback twice during your studies: at the initial stage and at the final stage. Tell us what has been done well and what could be done even better. The feedback is given anonymously and it is used to develop education and training.

To
students

FINNISH NATIONAL
AGENCY FOR EDUCATION

The survey is carried out by
the Finnish National Agency for Education
in cooperation with vocational institutions.

Student feedback

Requested from students who aim to complete a vocational upper secondary qualification, a further vocational qualification or a specialist vocational qualification, or a part or parts of these qualifications.

The questions are about the planning of the student's personal competence development plan, the acquisition of competence, the demonstrations of knowledge and skills, and the guidance and support related to studies and wellbeing.

The feedback is given anonymously and it is used to develop education and training.

Feedback is requested twice during the studies

THE INITIAL STAGE FEEDBACK SURVEY

is sent at the initial stage of the studies, when the pupil's personal competence development plan has been approved for the first time.

THE FINAL STAGE SURVEY

is sent at the final stage of the studies, when all competence has been acquired according to the objectives of the student's personal competence development plan.

Thank you
for
responding!
