

Roadmap for GIS team

	2021	2022	2023
--	------	------	------

Paituli	<ul style="list-style-type: none"> Centos -> RHEL & change of servers Support for new OGC APIs Accessibility and privacy notices 	<ul style="list-style-type: none"> Time interval selection in data download Paituli webinar Streamlining data uploads for researchers 	<ul style="list-style-type: none"> Allas use for some big datasets
	Data updates continuously, emphasis on publishing more researcher's datasets		

DL2020/LUMI	<ul style="list-style-type: none"> GIS installations with Singularity Dask evaluation and tutorial GIS software to OpenOnDemand 	<ul style="list-style-type: none"> LUMI GIS installations LUMI GIS promotion for European researchers GIS GPU libraries evaluation and code examples STAC catalog 	<ul style="list-style-type: none"> Satellite data in Allas Rahti template for GeoServer
	Software and data updates in Puhti / LUMI, user support		

ArcGIS	<ul style="list-style-type: none"> New consortium agreement for 2023-2025 		
	License server maintenance, street data updates, support to consortium members		

Training	<ul style="list-style-type: none"> Geocomputing in Puhti HPC ArcGIS Pro for research Spatial data analysis with R PyQGIS 	<ul style="list-style-type: none"> Geocomputing in Puhti HPC Python GIS Geostatistics with R Machine learning with spatial data Geocomputing seminar
	Guidelines and Github code examples updates	

Custom projects	<ul style="list-style-type: none"> LUKE BioKarelia GeoServer
	Kotus Nadigi GeoServer
