

UNIVERSITY
OF TAMPERE

Innovative learning environments: flexible learning paths and flexible methods to complete studies, Sami Hautakangas

UNIVERSITY
OF TAMPERE

Common trends

- The cooperation between universities and universities of applied sciences increasing in teaching
- Tampere a forerunner in cross-institutional studies
 - UTA, TAMK, TUT
- The flexible choices for students to select and complete studies
 - Digitalisation

UNIVERSITY
OF TAMPERE

Flexible learning paths

- Curriculum planning
 - Modules in degree structures where students can choose optional studies
 - Planned modules of optional studies offered to students
 - Study modules can also be "tagged" to a specific cooperation network
 - Preplanned recognition of studies from other universities
- Student perspective
 - Degree structure gives rules according which student can choose studies independently
 - Personal study plan

UNIVERSITY
OF TAMPERE

Flexible learning paths

- National project to support cross-institutional studies (2017-2019)
- Digitalisation and automation
 - Collecting course catalogues of cooperation networks from universities systems
 - Student registration to host institution to take studies
 - Transcript data transferred to home institution's system
 - A common service is developed for the interchange of data between universities

Course unit: **SOS4.2 Social Psychology** Faculty of Social Sciences - curriculum 2017–2019

Offering information: Based on offering information, units will be attached to for example the national teaching programme of the JOO students. Filling in the offering information does not automatically affect the selection of the students for the unit.

- for JOO students
- For international students in other institutions of higher education in Tampere (Unipoli-tarjonta)
- For upper secondary school students (Tampereen kaupungin lukioyhteistyö)
- For open university students
- Tampere3, ristiinopiskelu

Study offerings

This page allows you to browse studies that are offered to all degree students at Tampere University of Applied Sciences, Tampere University of Technology and the University of Tampere. Instructions for the Service for Cross-Institutional Studies also apply to the students of TAMK's School of Vocational Teacher Education. The offerings remain valid for an academic year at a time. To see more detailed information, click on the name of the course or module. Also see the information provided on study arrangements. If you have enrolled as a present degree student at your home institution, you can log into the service, pick courses and modules in your study basket and apply for Tampere3 studies.

OF TAMPERE

Flexible methods to complete studies

- For a course unit, it is possible to plan alternative ways to complete studies
 - E.g. attending a course or complete the studies doing independent work (writing an article or report, taking an exam)

UNIVERSITY
OF TAMPERE

Flexible methods to complete studies

- The modes of study can be organised flexibly
 - Electronic Exam: students can book an exam according to their own schedule
 - Learning Technology used in teaching
 - Blended Learning the most usual way
 - Lectures are recorded quite routinely -> support material during the course
 - Students use Office365 tools for collaboration
 - Digital Mentors to support teachers to utilise technology
