# If you could add a feature in the CompLeap prototype what would that be?

Working history

Työmarkkinatori connection

Artificial intelligence

Voluntary work history and opportunities

qualifications from other sectors

mahdollisuudet löytää muitakin kuin tutkintotavoitteista koulutusta esim. moduulikoulutuksia, lyhytkursseja ym.

Integration with counseling services

Context of the learner: possibility to full-time or part-time studies, opportunities to fund the studies, possibility to move to the other location etc.

How about informal learning?

# If you could add a feature in the CompLeap prototype what would that be?

I wish this would include info on labor market situation, like Foreammatti does. It would be really useful also for guidance services.

**International study possibilities**

**Skills and competences achieved in hobbies and volunteer activities**

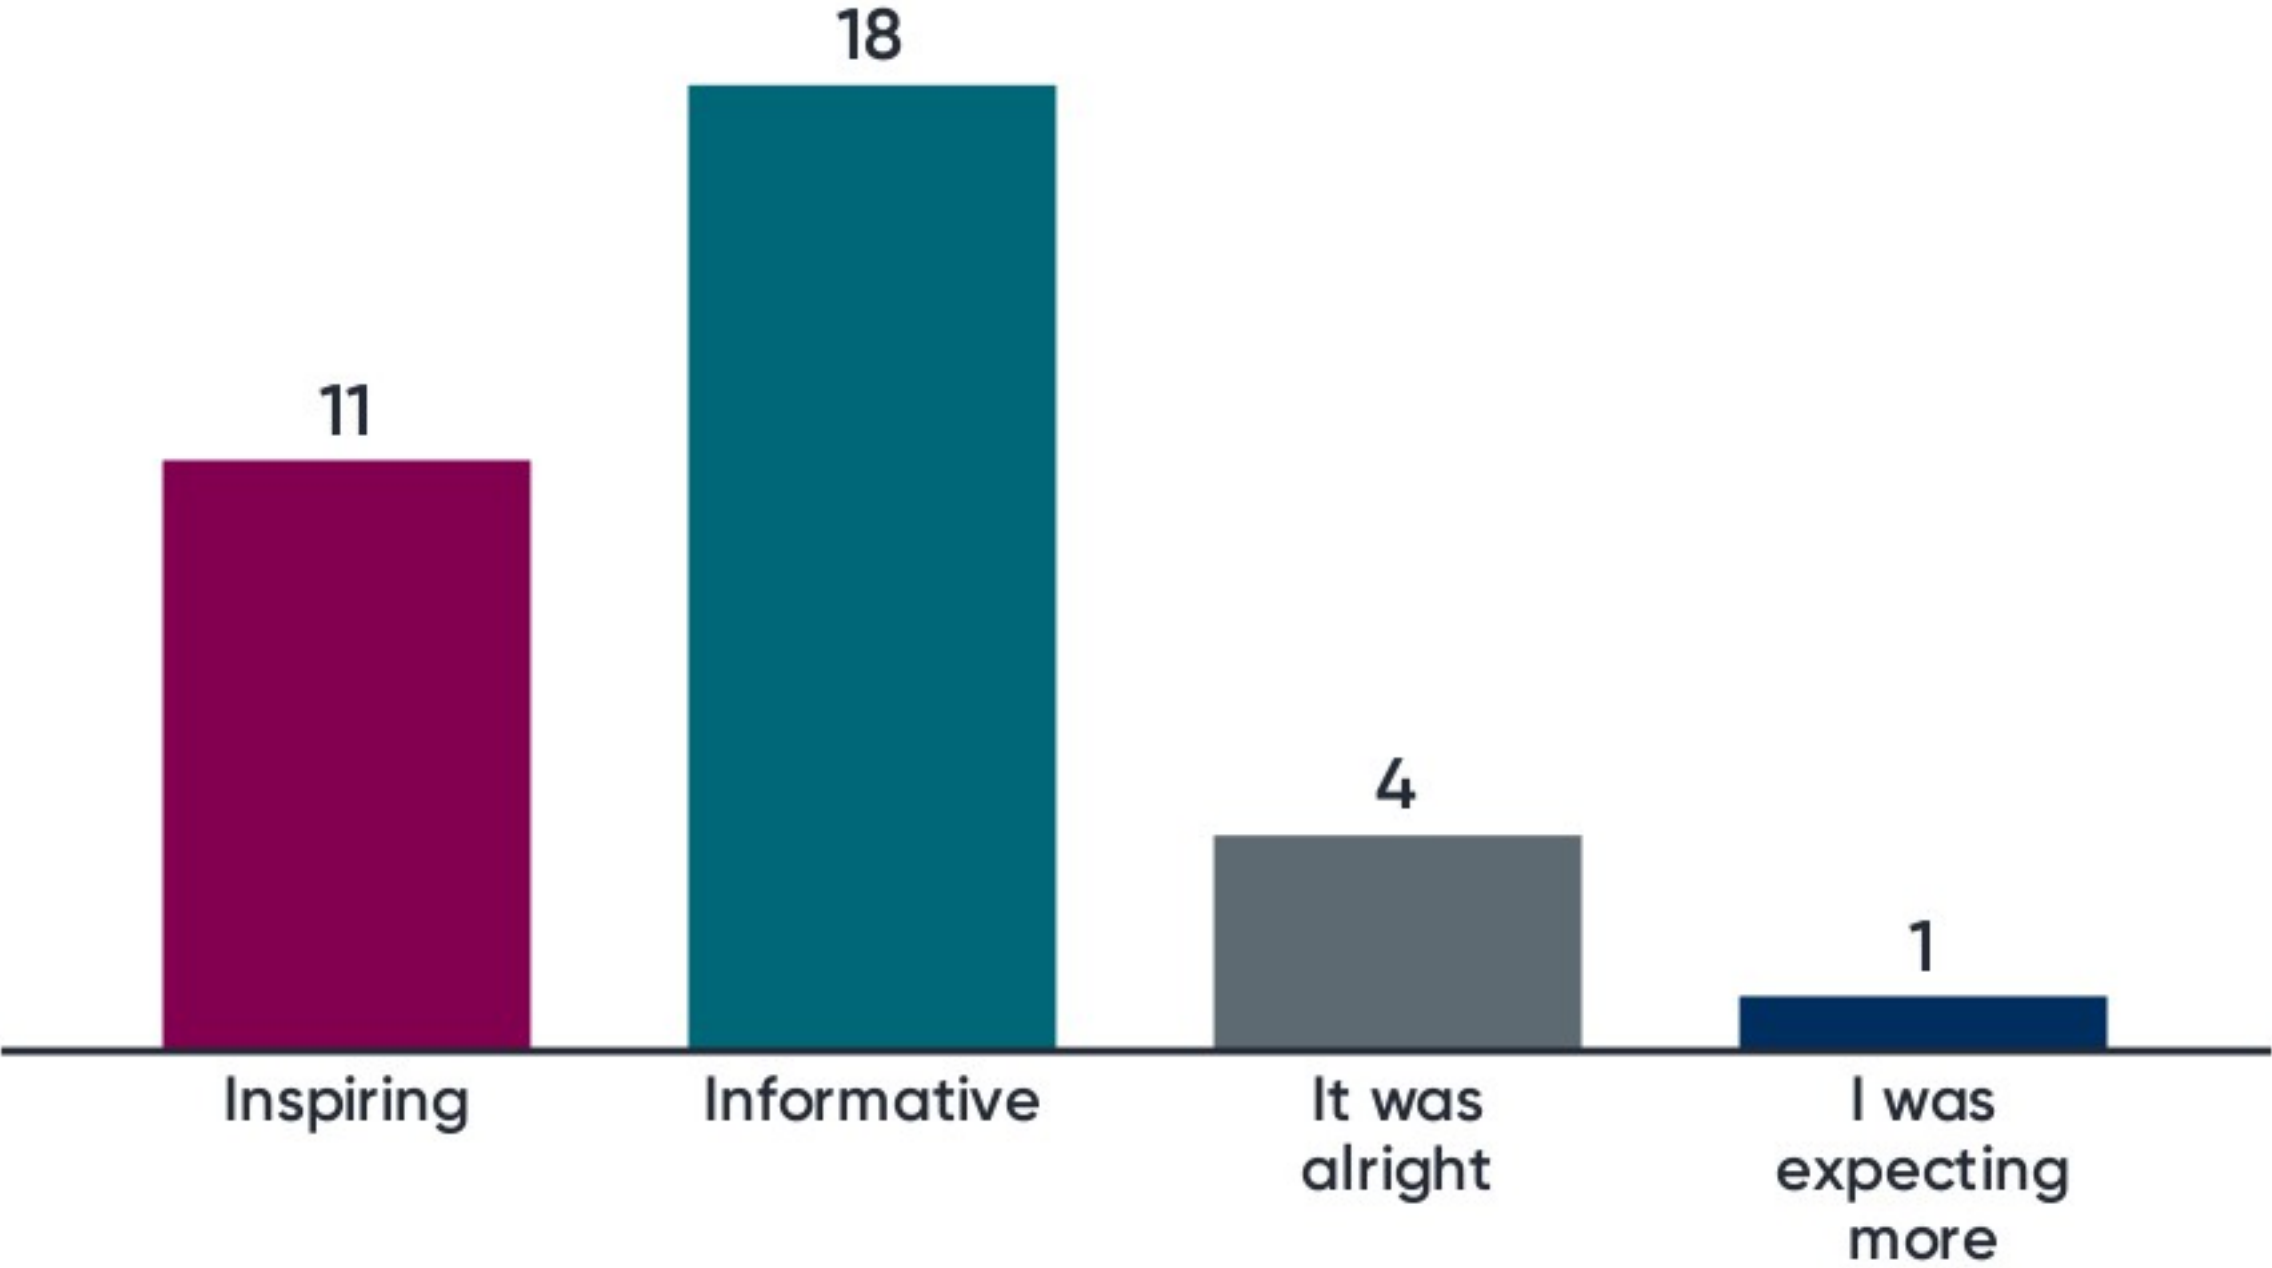

**Competence Meta Levels - knowledge, Social, Methods, Personal**

Study history and competences from non-formal education and recommendations of non-formal education for what to study in order to keep competence profile up to date.

**Help chat**

# How have you liked this seminar?

# Feedback to the CompLeap team:

Good work!

Thanks!

Good job

Thank you!

Co-operate with Euroopass

Very good
