WebEx

⚠️ **This service is still under evaluation process**

Level B

Service contains risks and is suitable for some use cases. ([Read more](#))

Service is not suitable for all use cases. Services may also collect and/or disclose information to third parties such as advertisers and business partners. Service provider may also unilaterally change the licensing, terms of usage or privacy settings. For example grading information and evaluation, research plans, development information, personal information (PII), financial information (e.g. business or other IPR) and information containing archiving responsibilities are not suitable for level C services. University's has no ability or legal mandate to manage the stored information in case of any problem situations. Such cases can be for example employers death or service provider's bankruptcy. Service provider can unilaterally change terms of service and privacy.

NB! Classifications in Cloud Guide pages concern only so-called **consumer services**, cloud services personally adopted by the user. The services adopted by the University (possibly with a separate agreement) may have different implementation and terms of use.
