

Welcome to Data Support Network -page

(suomeksi täällä)

The idea of the network is to serve as collaboration channel between CSC and data support personnel in Finnish research organizations. The network seeks to open an easy conversational connection and opportunity for peer support between experts. We have also gathered [organisations data support service addresses](#) to a sub page.

CSC-Data Support Network [csc.fi web pages](#).

You can find how to join the network and upcoming training events below. Other useful content on this page includes:

CSC Online self-study Research Data Management course

CSC's self-study Research Data Management course is now available both in English and Finnish. The course covers the basics of data management and gathers resources and tools available for different stages. There are no prerequisites for the course and you can log in to the course platform with either HAKA, VIRTU (using your own organization ID) or ELIXIR Life Science login. Read more from [CSC news](#).

This way to the English version of the [Research Data Management course](#)!

And here to the Finnish version [Tutkimusdatanhallinta](#).
