

Agreement bank

The agreement bank is used for contracts between student and the university (e.g. teacher). The contract can include a different implementation method and/or time or other agreements related to the completion of studies.

You can view your contracts and messages from your desktop. You will receive notifications on your home page about new contracts and their processing stages.

Open the contract bank. There are two buttons on the left side of the screen: **contracts** and **messages (picture 1)**. You can view contracts or messages by clicking on these buttons.
