

Finnish Association of Research Managers and Administrators

Finn-ARMA Network (*Finnish Association of Research Managers and Administrators*) brings together research administration and management experts from higher education institutions and research institutes in Finland. Network's core mission is to promote co-operation, exchange information and enhance the professional development of its members. Currently the network has ca. 500 members working in 17 thematic groups where the most of the actual activities take place.

At the heart of the network's activities is the idea of bottom-up action, which is born from the experts' own need. The activities of the working groups are shaped according to the needs of the group members. The network has a executive committee tasked to enable continuity of activities and take care of the general matters. Finn-ARMA network co-operates with other national parties providing its expertise for joint projects and contributing to the general development of its field.

[Please see an english slide set here](#)

TASKS OF THE NETWORK

- To promote cooperation, professional development and exchange of information between experts working in research administration, research support and research services in higher education institutions and research institutes.
- To support and promote training opportunities for network experts
- To participate in the coordination and implementation of national projects. Propose necessary development projects.
- To provide opinions and appoint experts.
- To maintain contacts with key stakeholders nationally and internationally.
- To promote the development of an overall picture of trends and needs in the area of research management and administration (in particular regarding digitalisation).
- The network is responsible for the development of reference architecture within it's field and maintains the national research administration and management vocabulary.

EXECUTIVE COMMITTEE

The executive committee of the network is responsible for the ongoing operations and represents the Finn-ARMA network both nationally and internationally.

TYÖVALIOKUNTA 2024

Anu Juslin, Tampereen yliopisto, pj. (24–26)

Ella Bingham, Aalto yliopisto (24–25)

Tuula Hämäläinen, VTT

Miki Kallio, Oulun yliopisto (23–24)

Laura Niemi, Turun yliopisto (24–25)

Marja-Riitta Vest, VAMK

Erkki Raulo, Helsingin yliopisto (23–24)

Varajäsenet:

Sanna Marttinen, Tulanet

Tomi Rosti, Itä-Suomen yliopisto (24)

Mari Vuolteenaho, Laurea

yksi varajäsenen (yo) paikka auksi.

Please contact the executive committee through the coordinator (walter.rydman@csc.fi, tel. 050 381 8521).

The executive committee warmly welcomes ideas to be addressed. If the issue concerns a topic for which there is already a working group within the network we also encourage you to contact the group's chair directly.
