

# CompLeap Events

The CompLeap team wishes to actively engage with partners and stakeholders in workshops, webinars and seminars. The prototypes being developed will be frequently user tested and validated in these events. Joint us in our events below to learn more and engage in joint planning and prototyping!

## Seminars

### CompLeap Monthly Webinars

## Workshops

### Demos for the prototype development

## USER TESTING PROTOTYPES

Based on the needs identified in the April Stakeholder seminar, we are creating the first mock-up prototypes for user testing and validation. The mock-ups concentrate especially on competence mapping. They will be tested with potential users in late May and early June, after which further specifications will be made to the user scenarios.

User testing and reference group validation will be done throughout the course of the project.

You can join our webinars and sessions by accessing <https://connect.funet.fi/compleap/>

You can follow CompLeap activities also on our webpage [www.compleap.eu](http://www.compleap.eu)

Participant data:

| Name of the event  | Topic                                                                      | n:o of participants      |
|--------------------|----------------------------------------------------------------------------|--------------------------|
| June 19th 2018     | CompLeap introduction                                                      | 30 online                |
| September 6th 2018 | CompLeap introduction to our digital tool                                  | 32 online                |
| October 10th 2018  | CompLeap workshop on service development at EDUFI                          | 18 in situ               |
| October 16th 2018  | Learning analytics by Egle Gendrimiene and Compleap architecture           | 24 online                |
| November 20th 2018 | Prototype Definition session - N:O 1. Topic soft skills.                   | 17 online                |
| November 28th 2018 | Open Badges by Sanna Brauer and Erik Van den Broek                         | 16 online                |
| December 4th 2018  | CompLeap Mid-term seminar at EDUFI                                         | 41 in situ and 18 online |
| December 5th 2018  | Prototype Definition session - N:O 2. Topic Open Badges and Scouts Finland | 16 online                |
| December 19th 2018 | Agile service development                                                  | 15 online                |
| January 16th 2019  | Linkage with Koski degree data with CompLeap project                       | 14 online                |
